COMPLIMENTS OF ALMEXPERTS

Litigators' Trusted Legal Resource

We're pleased to present the ***2015 ALM Experts Legal Expert Pages Directory*** FREE to subscribers to the ALM family of award-winning legal publications and services, which includes *The American Lawyer, The National Law Journal, Corporate Counsel,* VerdictSearch and law.com.

The ***2015 ALM Experts Legal Expert Pages Directory*** will be of immense value to anyone preparing for trial. From accident investigation to medical chart review to legal videography, the directory gives you instant access to information about thousands of experts, consultants, and litigation support professionals who can help you in building your strongest case.

How can you find the right expert or consultant for your case quickly and easily? ***The 2015 ALM Experts Legal Expert Pages Directory*** offers a variety of solutions:

- **Use our alphabetical index in the front of the book to easily find experts by category.**
- **See short abstracts of experts and companies in our listing section of alphabetized categories.** This section contains experts, ADR professionals, investigators, process servers, court reporters, and legal support professionals.
- **Read detailed resumes of experts.** Many experts have gone beyond simply providing general contact information and have included detailed descriptions of their background and experience to help you make your decision.
- **Expand your search online at ALMEXPERTS.COM**. Can't find what you're looking for in the print directory? Visit ALMEXPERTS.COM and search by keyword. Online searches also allow you to go beyond your local geographic area and find experts nationwide.

Why is the ***2015 ALM Experts Legal Expert Pages Directory*** so widely trusted? Because it's published by ALM, the nation's leader in legal news and information. ALM's highly regarded publications and conferences reach more than 1 million readers and attendees from coast to coast, including over 70% of the lawyers in the U.S. Our experience makes the ***2015 ALM Experts Legal Expert Pages Directory*** the ideal starting point for lawyers seeking experts and consultants.

If you have any questions about the ***2015 ALM Experts Legal Expert Pages Directory*** or **ALMEXPERTS.COM**, e-mail us at experts@alm.com or call us at **1-888-809-0133**. We value your readership and are happy to help.

INDEPENDENT SPINE EVALUATION, INC

William Dillin M.D.

Spine Surgery and Spine Medicine Consultant

The concepts of Evidence Based Medicine have been the cornerstone of Dr. Dillin's education during his spine surgery fellowship in Neurosurgery and Orthopaedic Surgery and the format for decision making in his subsequent practice.

The critical analytic features inherent in the 'best evidence' approach to patients have permeated his writing and his lectures, allowing flexible adaptation as the science has changed. The combination of logical clinical analysis based on these principles, and twenty five years of experience exclusively devoted to spine surgery and spine related problems, allows specialty focus on any **Independent Medical Evaluations** or **Medical-Legal Reviews.**

William Dillin, M.D. is a spine surgery and spine medicine consultant at the **Kerlan-Jobe Orthopaedic Clinic**. The Kerlan-Jobe physicians serve as consultants to the Los Angeles Dodgers, Los Angeles Lakers, Los Angeles Kings, Los Angeles Sparks, Los Angeles Angels of Anaheim, Anaheim Mighty Ducks, Loyola Marymount University and USC Trojan Football.

Degrees/Licenses: Fellow of the Society of Actuaries (FSA), Member of the American Academy of Actuaries (MAAA) and an Enrolled Actuary

Profile: *James Kenney* has more than 30 years' experience as a pension actuary, including 26 years as a consulting actuary, of which 18 years have been in an ownership role. He is the Founder, CEO and President of Kenney Consulting. Known for his deep knowledge of the tax code and IRS regulations, Mr. Kenney is a well-known expert in the employee benefit/pension plan industry and has been relied upon by numerous administrative and retirement committees, Board of Directors, and other bodies, including industry authorities and associations to provide professional advice, produce studies and reports, author industry publications, and present speeches relating to the field.

Clients frequently seek his expert witness services for pension and/or loss of income (lost wages) cases; he has testified in high profile cases such as the Retired Pilots of US Airways in bankruptcy proceedings.

Mr. Kenney's record of longevity is impeccable. Many of his clients have been with him for 15 or more years; he was the actuary for companies like Levi Strauss for 25 years and Air Liquide for 15. Valuing long term relationships, Mr. Kenney has worked with the same employees for over 25 years. Please email for a complete list of Mr. Kenney's accomplishments and credentials.

Profile: Wei Zhao is an Associate of the Society of Actuaries (ASA) and an Enrolled Actuary licensed by the Joint Board of the Department of Treasury & Department of Labor. She is only one step away from becoming a Fellow of the Society of Actuaries (FSA). She is also a Fellow of Conference of Consulting Actuaries (FCA) and a Member of American Academy of Actuaries (MAAA).

Wei had a BS in Mathematics from Beijing University in China and MA in Biomathematics and MS in Applied Statistics from UCLA. Before starting her own company Wei had worked with the top actuarial companies in the country such as Kwasha Lipton, Watson Wyatt Worldwide, KPMG Peat Marwick LLC, and Chicago Consulting Actuaries.

Wei draws upon her twenty years of experiences in retirement plan design, compliance, valuation and administration to support her clients' business strategies. Wei has worked with many employers, ranging from fortune 500 companies to single participant sole proprietorship to governmental and non-profit organizations on their retirement plans under the rules and regulations of IRS, FASB, IASB and GSAB.

Wei is known for her passion for creative design that tailors her clients' needs and business projections. She is one of the very few Chinese speaking credentialed pension actuaries practicing in the fast growing small employer pension market in the US, especially in the San Francisco bay area and the Silicon Valley.

Profile: Mr. Winer has more than a decade of experience in corporate aviation, including aircraft charter, aviation operations, and aircraft accounting. In addition he provides litigation support, including trial strategy and expert witness services, to attorneys and aircraft owners involved in disputes.

Mr. Winer's background and aviation litigation support work are multidisciplined and focus on assisting professionals as they posture, and litigators as they prepare their cases for trial. His work extends to the provision of expert witness testimony on matters ranging from aircraft transaction contretemps, aircraft insurance claims and disputes, aircraft management company disputes, and escrow funds interpleading. Mr. Winer has recently been involved in a number of high profile aircraft purchase disputes, providing document review, trial strategy, written motion support, and expert witness document production.

Mr. Winer has a B.S. in finance from Babson College and J.D. from Vermont Law School. He has been cited in all major and minor aviation publications and local media, and has spoken at corporate aviation seminars.

Licenses: Professional Engineer # 92944 Mechanical engineering, biomedical engineering, registered in Texas
Diplomate of the National Academy of Forensic Engineers

Profile: As a licensed mechanical and biomedical engineer, John Laughlin, M.Eng., P.E. can help you understand the relationship of the accident or product failure to the claimed injuries. He has reconstructed accidents involving automobiles, motorcycles, amusement park rides, public transportation, railroad/industrial equipment, and slips, trips and falls,. Mr. Laughlin has analyzed a broad spectrum of products including implantable medical devices, safety devices, bus seats, medical equipment, ladders and seat belts. As a biomechanical engineer, he is qualified to use injury based evidence from medical records, photographs and autopsy reports to create a complete understanding of the injuries and the mechanism of causation. Mr. Laughlin is an expert in human factors and has applied these principles to accident reconstruction and to the design of implantable medical devices. Mr. Laughlin is a seasoned professional and has testified over 65 times in 8 states and Federal court.

Degrees/Licenses: MBA, Six Sigma Certified, SAP Certified

Profile: As managing partner of Panorama Consulting Solutions, the world's leading independent ERP consulting firm, Eric Kimberling lends his enterprise software expertise to litigation related to operational disruptions, contract disputes and implementation delays caused by enterprise software failure and/or its vendors and systems integrators. Eric is also the author of the book, "An Expert's Guide to ERP Success". Eric and his team of ERP experts have been leveraged in many high profile software project failure cases involving Tier I ERP software (e.g., SAP, Oracle and Microsoft Dynamics) and Tier II software (e.g., Infor, Epicor, etc.).

Led by Eric, Panorama provides entirely unbiased and comprehensive software industry insight to a variety of ERP software vendors, systems integrators and customers. From writing in-depth reports to counseling legal teams on their strategies to responding to opposing expert testimony to on-site testimony, Panorama is the resource legal teams depend on to demystify the complicated web of computer system failures.

Some of the specific issues and allegations Panorama has addressed include:

* Sales cycle fraud and misrepresentation (including software license and maintenance agreements and project estimating)
* Contract compliance
* Consultant errors
* Budget overages
* Project governance
* Software customization
* Project team staffing
* Software schedule delays

Panorama has deep and broad experience in all aspects of ERP software, implementation and project management.

Degrees/Licenses: Carrier training by major Carriers such as AT&T, Verizon, Sprint/Nextel, Boost, Metro PCS, Cricket, T-Mobile, GTE, Contel, Pac-Tel Cellular, Cingular, Airtouch to name a few and is versed in all Carrier billing formats and Network operations. In addition manufacture training by Motorola, Fujitsu, Nokia, Samsung, LG, RIM, Ericsson, Technocel, and Shintom.

Profile: Jim Cook is a Wireless Expert with over 28 years of experience in the Cellular Industry. He is versed in all Carrier Billing Formats, and makes recommendations to Law Enforcement and Attorneys (in Civil Matters) on ways to maximize the evidence available from a Cellular Phone and the Carrier. Mr. Cook then analyzes the information and the Carrier Records, mapping the activity of the device. This mapping will give a graphic representation of the records showing the location of the device during a specific event or period of time. When Mr. Cook testifies in Court he has the ability to explain the technical aspects of how a cellular phone operates and interpret the Records to a jury so that a lay person can understand it.

Mr. Cook has testified in a wide range of cases including Hit-and-Run, Domestic Violence, Rape, Robbery, Arson, and Homicide, in both State and Federal Court where Cellular Phone data and records were a key piece of evidence.

Mr. Cook was a 2011 recipient of the HTCIA International "Case of the Year Award" and Featured in "Law Enforcement Technology Magazine" May 2011 issue. He also did the analysis, mapping and testified in the case People vs. Jason Gilley which Det. Brad Burrell of the Stockton Police Department received the Investigative Excellence Award at the 2014 Detective Symposium. He is a P.O.S.T./ICI Instructor for the South Valley and San Diego Regional Training Centers. He has also been an instructor at the 2009 Sexual Assault Investigators Association Conference, the 2010 and 2011 Detective Symposium, 2012 SAREX, and the 2011, 2012 and 2013 HTCIA International Conference.

Degrees/Licenses:
University of Georgia, Doctorate of Philosophy in Analytical Chemistry, 1980
University of Arkansas, Bachelor of Science in Chemistry with Honors, 1976

Profile: Fetzpahs Consulting is a provider of practical solutions to problems in the chemistry and analysis of petroleum-related materials and the polycyclic aromatic hydrocarbons (PAHs). The size of projects can be large or small, with rates that are flexible enough to meet budgetary constraints.

The principal, John C. Fetzer, is a recognized world-class expert in the chemistry and analysis of the polycyclic aromatic compounds. Specialist in the development of separation methods aimed particularly at crude oil, its distillate fractions (including asphalt and residuum), catalytically-processed petroleum products (waxes, mineral oils, lube oil basestocks, fuels, and intermediate oils, petrochemical products, and additives. He has a high-level of expertise in high-performance liquid, supercritical fluid, gel-permeation and gas chromatographies, and fluorescence and UV absorbance measurements.

With more than two decades of experience working for a major oil company and since 2001 working through Fetzpahs Consulting, Dr. Fetzer brings knowledge and understanding from many areas to bear on his clients' needs.

The 2005 Erich Clar Award of the International Society for Polycyclic Aromatic Compounds was given to Dr. Fetzer for his variety of research achievements.

COMMUNICATIONS AND INTERPERSONAL SKILLS
As author or co-author of over 140 refereed papers, including 8 review articles, 5 book chapters, 2 books, and 3 US patents, so his writing is informative, readable, and thorough. With over forty formal presentations at scientific conferences, speaking to any audiences is well-delivered. Dr. Fetzer has been a tour speaker for the American Chemical Society and has given many invited presentations at conferences and universities. As an expert witness, Dr. Fetzer has been deposed several times and served as a witness in one trial and for one governmental regulatory hearing.

Attended Cost of Capital and other valuation webinars
Member of Denver Chapter

Profile: Motorcycle Industry Consulting Services, LLC has been serving motorcycle dealers since 1981. The LEMCO Composite reports and department dashboards are among the best management tools available to drive sustainable improvement in motorcycle dealership operations. Laura Lemco especially excels at performing business valuation appraisals and serving as a consultant in ownership transitions.

Laura has written an expert witness report regarding dealership operations in a motorcycle fatality case that resulted in a favorable settlement for the dealership defendant. Laura has been deposed by litigation attorneys and the IRS and has been interviewed by the FBI. Laura is able to think clearly under pressure. Having experienced her own business litigation case, Laura understands the legal process and the importance of documentation, discovery and responses, and appreciates the amount of work involved in any legal case. Laura is able to meet deadlines, cope with stress and communicate clearly with a diverse audience.

Web: www.jjkellerservices.com

Degrees/Licenses: Certification, Transportation Safety Institute

Profile: J. J. Keller & Associates' focused attention on safety and regulatory compliance has proven valuable to clients in litigation involving accidents, accusations of negligent hiring and supervision, labor relations, OSHA incidents, and more. J. J. Keller's Expert Witness Service brings credible, qualified, and highly experienced safety consultants to serve as expert witnesses for plaintiff and defense attorneys.

Specialty Focus, Special Skills, Experience: Hazardous Materials, DOT, Safety, Transportation Safety, Federal Motor Carrier Safety Regulations, Commercial Vehicles, Driver Compliance, Driver Training, DOT Regulations, Motor Carrier Safety and OSHA Regulations/Standards

Additional Information: Ed Emerick's area of expertise is transportation safety and compliance. Ed is engaging and able to support his expert opinion by applying the applicable regulations to real life situations. Ed has participated in a number of litigation situations in which he provided subject matter expertise in the interpretation of DOT regulations, driver safety and risk minimization. Ed's talent for describing complex regulations in layman's terms makes it easier for someone who is not a subject matter expert to understand. In an accident that involves a commercial motor vehicle, it's critical to have a credible source that understands literal and practical application of regulations.

Profile: Schulze Haynes Loevenguth & Co. provides services in the areas of forensic analysis and expert testimony, forensic accounting, and fraud investigation, business valuation, corporate recovery/turnaround management, and transaction advisory. We cover issues related to lost profits, economic damages, financial analysis and accounting. Typical matters involve providing litigation counsel with expert analysis, assistance and testimony involving economic damages, intellectual property issues, employment, corporate governance, banking and securities and real estate. We also provide services related to the stabilization, management, and resolution of business crises. Our experts average over 30 years of hands-on experience each - founding, acquiring, building and running business enterprises, as well as advising owners and counsel. In contrast to others who have spent their entire careers giving advice, we have all been on the other side of that table, as executive officers, directors, business and property owners, and entrepreneurs. We hold the highest and most recognized level of all applicable credentials.

California Insurance Licenses: Life & Disability Agent, Property & Casualty Broker

Profile: Maurice Lieberman is an expert witness specializing in insurance litigation and disputes. He consults with attorneys and assists council in trial preparation regarding issues of life insurance and annuity coverage analysis, coverage disputes, and company practices. He has been called upon to be an expert witness in insurance litigation cases for both the defense and plaintiff's side.

Mr. Lieberman started as an insurance agent for Metropolitan Life and then advanced in his career to manage brokers. He successfully built agencies for Aetna, and Principal Financial Group. He was later promoted to Regional Director for New England Financial, and CSAA Life. Over the years he mentored hundreds of insurance agents, brokers, financial planners and agency managers to build their own successful careers and agencies. He was also a member of the Million Dollar Round Table and utilized his selling and management experience to train insurance agents, brokers and financial planners in advanced areas of estate, business insurance, and financial planning.

In addition, Mr. Lieberman holds three professional designations from the American College; Chartered Life Underwriter, Chartered Financial Consultant and Registered Health Underwriter. He is a Life Insurance Training Council Fellow, and a member of the American College of Financial Services Professionals and the American College of Forensic Examiners International. Mr. Lieberman has utilized his financial planning and insurance industry knowledge to consult with attorneys for over the past nine years.

Phone: (978) 460-0662
Fax: (978) 443-7414
E-mail: btm@swxprt.com

Profile: Robert Mulcahy is an experienced independent consulting and testifying expert witness who has 30 years of direct hands-on experience in numerous positions in the computer, software and computer storage industries. He has worked as a technical sales expert, a software developer and a support engineer. In these positions, he has created, sold and supported products and services that used a wide variety of technologies including fault tolerance, Linux, device drivers and Java. He has also employed and adapted many different software engineering, support, and sales practices such as agile project management, product testing, source code reviews, and compliance audits. As a technical sales expert, he has sold products based upon these technologies and practices. He has worked both at established companies such as EMC and Hewlett Packard as well as at a number of startups including two that he founded.

Mr. Mulcahy has provided technical consultation on a variety of technologies and engineering issues and has testified three times on Copyright, Patent and software contract issues. His ability to translate complex technical ideas and concepts into accessible and understandable language developed primarily while in technical sales and customer service. In those roles, he engaged in frequent discussions, created and delivered formal presentations and papers, and created and taught classes where he explained and at times defended the practices and technologies used by the company for which he worked. The audiences included executives, technical experts and/or novice end-users - and not necessarily friendly.

Mr. Mulcahy has analyzed and tested complex computer systems and software applications both as an Expert Witness and in his various engineering and management roles and communicated his findings in clear and understandable language. His experience writing both formal technical documents as well as user manuals has helped hone his writing skills.

Degrees/Licenses: Certified Public Accountant, Certified In Financial Forensics, Ph.D., CFA

Profile: Patents, copyrights, trademarks and trade secrets are all considered intellectual property rights that allow an owner to benefit financially by limiting certain types of activities such as unauthorized use of another invention, the selling of unauthorized copies of another's work, selling a product as if it were that of another, or using proprietary business or product information owned by others. Lit.Econ LLP consultants have assisted trial lawyers and their clients in many types of intellectual property disputes. Our work has included the calculation of reasonable royalty rates, lost profits due to infringement, convoyed sales, incremental profit analysis, harm to reputation and goodwill, added costs and determination of gain by the infringer.

Profile: Hennington and Associates is the leading Trial and Jury consulting firm in the Nation. We are a full service firm that specializes in winning favorable settlements and verdicts. Our firm is fully committed to helping you solve your most critical legal challenges while offering our clients comprehensive solutions.

We have over 20 years of experience helping our clients win - civil, criminal, plaintiff and defense cases throughout the country. We have helped our clients win cases in Federal and State Courts throughout the Country. We have been hired by counsel in some of the highest profile cases that have been featured on all major media outlets.

We offer assistance at any stage of litigation you are involved with, however, the earlier we are able to assist you, the greater the opportunity you will have to address your concerns and possibly resolve the legal matter before the start of trial.

Our Services include:
Before Trial : Case Consultation, Case Review of Documents, Mediation, Community Attitude Surveys, Case-Issue Focus Groups, Verdict Analysis, Trial Simulation, Judges Panel, Damages Study, Demonstrative Evidence Study, Witness deposition preparation, Jury Research, Questionnaire/Voir-Dire Design, Jury Selection Database, Designing Juror Profiles, Theme Development, Presentation Design, Opening Statement/Closing, Witness Preparation, Witness trial Preparation, Demonstrative Exhibits, Psychological Evaluations and Case Valuation.
During and Post-Trial: Jury Selection, Trial Monitoring, Judicial and Opposing Counsel Profiles, Media Management, Witness Preparation and Post-Trial Interviews.

Our research techniques and sophisticated graphics have been developed exclusively for successful litigation. Using these procedures the firm helps attorneys better understand the psychology and behavioral dynamics of jurors.

We have locations in: New York City - Beverly Hills - Miami - Sacramento

Degrees/Licenses: State Licenses: California, Colorado, Nevada, Oregon, Utah

Profile: Ray Carlson and Associates, Inc. has been surveying and mapping the North Bay since 1976. As a premier land consulting firm located in Santa Rosa, we offer a vast knowledge and keen understanding of the land throughout Sonoma, Marin, Napa, Lake and Mendocino Counties.

With knowledge and records of over 4,000 land parcels, we know original survey lines and monuments used by previous surveyors and we have a great rapport and history with other agencies in order to complete your project. At Ray Carlson & Associates, we are always on the leading edge of surveying technology to ensure the highest possible professional service.

Our innovative approach to surveying includes being the first surveying firm in Sonoma County to own Global Positioning Satellite (GPS) equipment. Our Geographic Information System (GIS) is so powerful it can track your land in layers; from where you buried your irrigation systems to the type of vines in a vineyard and can even include a report of the yield per field.

We are a dedicated team of professionals tuned into the land and the communities upon it. We invite you to make Ray Carlson and Associates your professional choice for all your GIS data management and surveying projects.

Profile: Todd has over 40 years' experience in real estate lending, and offers comprehensive and functional expertise providing a consistent and well-documented analysis of issues. He has served as Executive Vice President and Chief Lending Officer of FDIC insured institutions, established wholesale lending regions for savings & loans, and directed new-branch expansions for major mortgage banking corporations.

He has developed lending policies and procedures for savings banks and residential wholesale production subsidiaries, as well as directed the underwriting, funding, closing, quality control, fraud detection and prevention, secondary marketing and loan servicing origination divisions.

Todd has been in the contemporary lending and mortgage banking industry from its inception, and has hands-on experience and knowledge of the essential elements of lending. He has witnessed the industry's changes over the years and understands why they occurred.

Todd has been designated as an expert in more than 70 matters, and has extensive consulting, deposition, arbitration, bench and jury trial experience. Since 1984, he has opined on issues including mortgage underwriting, elder abuse, risk assessment, loan servicing, loan fraud, broker fraud, broker fiduciary duties, and industry standards and practices for institutional and private lenders.

Web: www.AnotherLook.us

Profile: If you are engaged in a tough civil rights, police liability or tort case where you are trying to make the critical decision of going to trial or settling your case then *AnotherLook* is the service you need. Instead of an expensive, time-consuming evaluation using a "mock jury", *AnotherLook* will quickly evaluate your case using a Federal/State qualified courts expert, partnered with an experienced trial attorney who specializes in government liability, civil rights and torts cases.

AnotherLook provides discrete, professional, timely and cost-effective secondary case analysis by internationally recognized forensic police practices and premises liability expert Dr. Ron Martinelli; partnered with experienced and leading trial attorney Mark Jarmie. These trial consultants have 60 years of combined trial experience to accurately and confidentially assess your case.

Our services include: Review of the critical facts of your case; discussion of your case's strengths and weaknesses; listening to and evaluating your concerns; delivering a confidential written assessment report with verdict(s) and damage award estimates within 72 hours; and providing consultation with the insights you need to make the right decision with confidence and in a timely manner.

AnotherLook has a very simple, attorney friendly, and cost-effective fee schedule for every case.

Profile: Forensic police practices and death investigations expert. How formidable would you be as an attorney to be able to pick up the phone and immediately have at your disposal all of the investigative and forensic resources of a large city police department and a Medical Examiner's Office? You can be that attorney now!

Dr. Ron Martinelli, is an experienced and internationally recognized forensic police practices and premises liability expert who is Federal/States Court qualified. He also leads the nation's only multidisciplinary *Forensic Death Investigations Team* of eighteen investigators, scientists, CSI technicians, pathologists, toxicologists and forensic support staff.

Dr. Martinelli and his staff specialize in simple to complex government civil rights cases involving 4th, 8th and 14th Amendment allegations; as well as commercial premises liability and insurance tort cases involving injury and death. Dr. Martinelli is skilled in incident reconstruction, evidence gathering, discovery and forensic analysis. He has a diverse background in law enforcement, forensics, medicine, human factors and psychophysiology. He is a graduate of some of the world's most prestigious institutions where forensics, crime scene reconstruction, homicides, officer-involved shootings and in-custody deaths are taught.

Dr. Martinelli is referred to by his attorney clients as *"The expert's expert"* and is on the prevailing side in **90%** of his retained cases. His civil and criminal case load representations are well balanced and he is respected by his retained and opposing counsels for his honesty and ethics. He experts for several State Attorney Generals' Offices, major municipalities and a number of nationally prominent law firms specializing in civil rights, wrongful death and insurance cases. He authors comprehensive, fact-based forensic reports and presents well in deposition and at trial. Since 2004 alone, he has saved defendant agencies over **$180 million**, with plaintiff clients awarded over **$55 million** in jury verdicts and settlements. Call us today for a free initial case consultation.

Areas of Expertise:
All 4th, 8th & 14th Amendment allegations, field and corrections. All levels of force and weaponry; excessive force including officer-involved shootings and in-custody deaths; Internal Affairs; hiring, supervision, policies, training and liability; Monell claims. Wrongful death. Premises liability, security, and insurance cases.

Degrees/Licenses: Certified by RCI, Bachelor of Science degree in Biological Sciences and Chemistry from the University of Arizona

Profile: Roofing & Waterproofing Forensics, Inc. is solely a consulting firm specializing in roofing, waterproofing, sheet metal, exterior building envelope weather and moisture barriers and cladding systems (stucco, E.I.F.S., siding, masonry and cavity walls, windows and doors, etc.). Our specialties are design reviews, performing complex leak investigations in order to determine the cause and origin of leaks as well as developing comprehensive and effective scopes of repairs. We have provided litigation support on hundreds of complex construction defect litigation cases representing Defense, Plaintiff and as a Neutral Third Party. Mark has provided expert witness testimony in over a dozen trials and been deposed well over 125 times.

Conducting 1,000's of leak investigations over the past 27 years has provided invaluable experience in proving the source(s) of water intrusion, why the system failed and the responsible parties. Our expertise includes virtually all types of commercial and residential roofing (i.e., low-sloped asphalt built-up roofing, APP and SBS modified bitumen, elastomeric and rubberized systems, single plies (PVC, CSPE, CPE, EPDM, TPO, etc.), coating systems, standing seam metal roofing, clay and cement tile, wood and asphalt shingles.

In addition to roofing, we have extensive experience with virtually every type of waterproofing system and material.

Profile: Mr. Hill has ten years' experience in the addiction counseling/law enforcement field, in addition to over thirty years in addiction treatment. He and his team have become experts, sought after by insurers like United Healthcare to assist them in the development of their ambulatory detoxification protocol. His treatment program is the lone recipient of the United States Behavioral Health's OPTUM AWARD for excellence.

Mr. Hill has provided family court evaluations to the Riverside and Hemet court system for over twenty years. Additionally, he has provided consultation and expert witness testimony in criminal (capital, possession w/ intent), civil (wrongful death, standards of care, labor) cases.

Mr. Hill combines advanced education, years of addiction treatment experience with his own personal knowledge of addiction and recovery. Past clients have commented on his unique ability to simplify difficult cases while gaining the trust of juries and judges. His understanding of addictive disorders surpasses textbook knowledge and encompasses a street understanding.

He opened and directed his own full service adult and adolescent outpatient treatment program since 1987 and, previously, directed residential and hospital based inpatient programs in New Mexico and Colorado.

Degrees/Licenses: M.D.

Profile: Steven R. Graboff, M.D. is a Diplomate of the American Board of Orthopaedic Surgery, a Diplomate of the American Board of Forensic Examiners, and a Diplomate of the American Board of Forensic Medicine. He is a member of the American college of Forensic Examiners and a Certified Forensic Physician. He has had an active Orthopaedic Surgery practice in Huntington Beach, California, since 1985, and he brings considerable expertise and experience to the forensic medical legal community.

With over 20 years of litigation support experience, Dr. Graboff has qualified and testified as an orthopedic expert witness over 400 times for both the plaintiff and defense in cases throughout the United States.

He has given expert witness testimony in personal injury and medical malpractice cases in Superior, Central, and Federal Courts on issues such as wrongful death, DVT/pulmonary embolism, joint replacement surgery, orthopedic infection, spine surgery, fracture management, failure to diagnose/missed-diagnosis, FELA railroad injuries, slip/trip and falls, spinal cord and peripheral nerve injuries, motor vehicle accidents, assaults, manufacturer defect caused trauma, i.e.: tire blow-out and implant failure/recall, mass casualty such as train derailment, pre-existing conditions, and most other Orthopedic (surgical and non-surgical) related issues.

In the capacity of the forensic medical expert witness, Dr. Graboff has written opinions and testified in the areas of orthopedic biomechanics and mechanism of injury, diagnosis, causation, apportionment, reasonable medical care and treatment, reasonable medical costs, need for future medical treatment, permanent damages, functional impairment, negligence, and standard of care issues.

Post verdict jury polls have consistently found Dr. Graboff to be a credible and likeable expert witness with excellent teaching and communication skills.

Profile: ELITE MEDICAL EXPERTS is a physician-run consulting firm specializing exclusively in medical litigation. From Stanford to Yale, and from every medical and surgical specialty, ELITE MEDICAL EXPERTS secures leading university experts for medical litigation. We work with attorneys for plaintiff and defense, as well as medical malpractice insurers, to secure the leading medical experts from the nation's top academic institutions. All of our experts have busy clinical practices, but they also write major textbooks, publish peer-reviewed articles, and teach upcoming physicians in their field.

ELITE MEDICAL EXPERTS provides:

* 100% Board-Certified, full-time practicing university faculty.
* Immediate, cost-effective case analysis on a flat-fee basis.
* Full strategic planning.
* Panels of experts for complex class action cases.

To further benefit our clients, the physicians and surgeons of ELITE bill at a convenient fixed rate. In fact, most cases are handled with a simple retainer that covers the initial case review and opinion. Experts are generally secured within a few days and offer their independent opinions shortly thereafter.

We invite you to visit our web site (click on the link above) and to call us directly to learn more about the professionals at ELITE MEDICAL EXPERTS. You will speak with a healthcare expert and there is never a charge for the initial telephone consultation.

We appreciate your time and look forward to working with you on your next case.

Profile: Bonnie has provided expert witness testimony in child support cases, primarily for leading family law firms in Southern California, since 1998. She plans and executes research to determine nutrition needs of dependent children and the costs of providing for those needs. Nutrition research can be specific to individual food preferences, allergies or other special dietary conditions, customary food access and patterns of intake.

Bonnie Modugno, MS, RD, is a registered dietitian and the owner of More Than Food, Inc, a food and nutrition consultation business and Nutrition Works, a nutrition consultation business, located in Santa Monica, California. Bonnie specializes in infant and child nutrition, energy metabolism, weight management, sports nutrition and eating disorders. In addition, she writes and speaks extensively to teachers, coaches, parent groups, school nurses, pediatricians and other health professionals regarding nutrition for children and adolescents.

Web: www.elitemedicalexperts.com

Profile: ELITE MEDICAL EXPERTS is a physician-run consulting firm specializing exclusively in medical litigation. From Stanford to Yale, and from every medical and surgical specialty, ELITE MEDICAL EXPERTS secures leading university experts for medical litigation. We work with attorneys for plaintiff and defense, as well as medical malpractice insurers, to secure the leading medical experts from the nation's top academic institutions. All of our experts have busy clinical practices, but they also write major textbooks, publish peer-reviewed articles, and teach upcoming physicians in their field.

ELITE MEDICAL EXPERTS provides:

* 100% Board-Certified, full-time practicing university faculty.
* Immediate, cost-effective case analysis on a flat-fee basis.
* Full strategic planning.
* Panels of experts for complex class action cases.

To further benefit our clients, the physicians and surgeons of ELITE bill at a convenient fixed rate. In fact, most cases are handled with a simple retainer that covers the initial case review and opinion. Experts are generally secured within a few days and offer their independent opinions shortly thereafter.

We invite you to visit our web site (click on the link above) and to call us directly to learn more about the professionals at ELITE MEDICAL EXPERTS. You will speak with a healthcare expert and there is never a charge for the initial telephone consultation.

We appreciate your time and look forward to working with you on your next case.

E-mail: bpozos@gmail.com

Degrees/Licenses: Ph.D. in Physiology, Post doctoral training in Clinical Physiology

Profile: Dr. Pozos has had extensive experience studying human response to environments resulting in hypothermia and hyperthermia. He has conducted ethically approved human experimentation dealing with hypothermia, hyperthermia, cold-induced vasodilation as well as local cooling experiments. In addition, he has also evaluated the insulative effectiveness of flotation devices and exposure suits.

He has authored chapters concerning primary and secondary hypothermia. Current studies have investigated local cooling systems used to minimize pain after surgery which play a major role in producing non freezing cold injury which is distinct from frostbite. Dr. Pozos established the hypothermia laboratory at University of Minnesota-Duluth School of Medicine where he was a professor of physiology and subsequently was one of the chief civilian scientists at Naval Health Research Center in San Diego where he evaluated the thermal effectiveness of military garb for combat operations. Dr. Pozos is currently professor of biology at San Diego State University.

Profile: ELITE MEDICAL EXPERTS is a physician-run consulting firm specializing exclusively in medical litigation. From Stanford to Yale, and from every medical and surgical specialty, ELITE MEDICAL EXPERTS secures leading university experts for medical litigation. We work with attorneys for plaintiff and defense, as well as medical malpractice insurers, to secure the leading medical experts from the nation's top academic institutions. All of our experts have busy clinical practices, but they also write major textbooks, publish peer-reviewed articles, and teach upcoming physicians in their field.

ELITE MEDICAL EXPERTS provides:

* 100% Board-Certified, full-time practicing university faculty.
* Immediate, cost-effective case analysis on a flat-fee basis.
* Full strategic planning.
* Panels of experts for complex class action cases.

To further benefit our clients, the physicians and surgeons of ELITE bill at a convenient fixed rate. In fact, most cases are handled with a simple retainer that covers the initial case review and opinion. Experts are generally secured within a few days and offer their independent opinions shortly thereafter.

We invite you to visit our web site (click on the link above) and to call us directly to learn more about the professionals at ELITE MEDICAL EXPERTS. You will speak with a healthcare expert and there is never a charge for the initial telephone consultation.

We appreciate your time and look forward to working with you on your next case.

Profile: ELITE MEDICAL EXPERTS is a physician-run consulting firm specializing exclusively in medical litigation. From Stanford to Yale, and from every medical and surgical specialty, ELITE MEDICAL EXPERTS secures leading university experts for medical litigation. We work with attorneys for plaintiff and defense, as well as medical malpractice insurers, to secure the leading medical experts from the nation's top academic institutions. All of our experts have busy clinical practices, but they also write major textbooks, publish peer-reviewed articles, and teach upcoming physicians in their field.

ELITE MEDICAL EXPERTS provides:

* 100% Board-Certified, full-time practicing university faculty.
* Immediate, cost-effective case analysis on a flat-fee basis.
* Full strategic planning.
* Panels of experts for complex class action cases.

To further benefit our clients, the physicians and surgeons of ELITE bill at a convenient fixed rate. In fact, most cases are handled with a simple retainer that covers the initial case review and opinion. Experts are generally secured within a few days and offer their independent opinions shortly thereafter.

We invite you to visit our web site (click on the link above) and to call us directly to learn more about the professionals at ELITE MEDICAL EXPERTS. You will speak with a healthcare expert and there is never a charge for the initial telephone consultation.

We appreciate your time and look forward to working with you on your next case.

Profile: ELITE MEDICAL EXPERTS is a physician-run consulting firm specializing exclusively in medical litigation. From Stanford to Yale, and from every medical and surgical specialty, ELITE MEDICAL EXPERTS secures leading university experts for medical litigation. We work with attorneys for plaintiff and defense, as well as medical malpractice insurers, to secure the leading medical experts from the nation's top academic institutions. All of our experts have busy clinical practices, but they also write major textbooks, publish peer-reviewed articles, and teach upcoming physicians in their field.

ELITE MEDICAL EXPERTS provides:

* 100% Board-Certified, full-time practicing university faculty.
* Immediate, cost-effective case analysis on a flat-fee basis.
* Full strategic planning.
* Panels of experts for complex class action cases.

To further benefit our clients, the physicians and surgeons of ELITE bill at a convenient fixed rate. In fact, most cases are handled with a simple retainer that covers the initial case review and opinion. Experts are generally secured within a few days and offer their independent opinions shortly thereafter.

We invite you to visit our web site (click on the link above) and to call us directly to learn more about the professionals at ELITE MEDICAL EXPERTS. You will speak with a healthcare expert and there is never a charge for the initial telephone consultation.

We appreciate your time and look forward to working with you on your next case.

Degrees/Licenses: MD degree, California license, Diplomate American Academy of Orthopedic Surgeons, American Medical Association, California Medical Association, Western Orthopedic Association.

Profile: MRK Medical Consultants has been providing a wide array of medical expert consultative services to the legal and insurance community since 1975. MRK Medical Consultants experts offer objective review and analysis of personal injuries. Each stage of the process - research to review, analysis to opinion is addressed in a comprehensive manner in order to help legal and insurance professionals reach appropriate conclusions about their clients cases. Our referrals emanate from defense and plaintiff attorneys as well as claims examiners.

Practicing experts widely respected in their field offer objective reviews. Record review, independent medical examination (IME), expert testimony, utilization and bill review, and medical malpractice cases are services that we offer in addition to IME's.

MRK is physician owned by a practicing orthopedic surgeon and has onsite medical professionals available for consultation to offer you an opinion on the services you need and give you immediate feedback. We interview and select our board certified physician specialists and are selective regarding physicians we contract with. It is important that we offer the highest standard of medical expert to you. Our corporate office in Carmichael, California and satellite offices in Atwater, Chico, Fresno, Las Vegas, Modesto, Oakland, Pollock Pines, Redding, Reno, San Diego, Santa Rosa, and Truckee are available to assist you with your medical legal needs.

Degrees/Licenses: JD - Indiana University; PhD - Columbia University - Licensed Psychologist and Attorney NY and California

Profile: As a psychologist with specialized training in neuropsychology, I have substantial research and teaching experience in academia, but I devote most of my time to "real-world" clinical work involving mental-health and developmental issues. After post-doctoral work at Yale, Columbia and the NIMH, I directed community clinics and conducted my own private practice. My work as an expert benefits from my experience as an attorney for a decade in major national firms. As a psychologist, I have testified successfully (including surviving a Daubert challenge) in cases involving adults and children. I have a number of publications and specialty certifications.

Child, Adolescent and Family Psychological Injury Experts

The Children's Psychological Trauma Center provides case consultant for defense or plaintiff attorneys, evaluations and testimony regarding allegedly traumatized children, adolescents and families.

Settlements and awards to plaintiffs for whom our experts provided evaluations or testimony have totaled over $2,000,000,000. We have also helped many defendants obtain defense verdicts or reasonable settlements in civil actions involving allegations of psychological trauma.

Our forensic team **expertise includes emotional damages resulting from:**

- Aircraft accidents
- Brain damage
- Bullying
- Catastrophes
- Civil rights violations
- Child molestation or abuse
- Fire/explosion
- Foster care
- Human services failure
- Institutional/ Corporate negligence
- Loss of parental services
- Medical malpractice
- Personal injury
- Product Liability
- Psychological Autopsy
- Vehicular accidents
- Wrongful death of parent

The Center is directed by Gilbert Kliman, MD, a Harvard Medical School Graduate, board certified child psychiatrist and Distinguished Life Fellow of the American Psychiatric Association. Dr. Kliman spends more than half of his time on therapy and research and less than half on litigation. International literary prize winner and author of over 50 articles and books, recipient of over 50 grants, he has spent over 35 years founding public health organizations to help children. Diplomate of the American College of Forensic Examiners and four psychiatric specialty boards, Dr. Kliman has served as psychiatric expert in some of the nation's most important institutional neglect and child psychological trauma cases.

Known for appearances on 20/20 and The Today Show, listed in "Best Doctors in America", he can provide attorney references from over 100 trials and 275 depositions. He has been accepted as psychiatric expert by federal and state courts in Alaska, California, Florida, Mississippi, New York, Michigan, Montana, Ohio, Oregon, Texas and Washington. Much of his testimony is for defense of municipalities, schools, corporations, and individuals, in which attorneys references describe remarkable effectiveness. He is one of the nation's most highly credentialed forensic child psychiatrists and has a team of distinguished associates.

Profile: For over 25 years, Dr. Berkowitz has specialized in forensic psychology, neuropsychology and clinical/diagnostic assessment court evaluations and trainings. She is a licensed Clinical Psychologist and Marriage, Family and Children Counselor. Dr. Berkowitz has served as an expert witness in hundreds of high profile and complex cases within the California Superior Courts. Her consultation and expert testimony expertise in California and Nationally includes addressing legal questions pertinent to high conflict co-parenting difficulties, domestic violence and abuse, violence and sex offender risk assessment, psycho-sexual issues, persuasive development disorders, head injury, neuropsychological functioning, cognitive ability, parental alienation, child sexual abuse, false allegations and psychological/emotional damages for Family Law, Criminal and Civil Court as well as for Military Court martials. Dr. Berkowitz also provides litigation consultation to attorneys regarding various psychological and parenting issues, some of which include: Psychological and Neuropsychological Testing, 500+ Child Custody Evaluations, Expert Witness testimony, School Evaluations, Psychological Testing, Reports, Declarations, and consultations with other professional involved on a case when appropriate.

Dr. Berkowitz travels nationally and internationally to evaluate parties and sites and to testify when needed. She does extensive interviews on all cases and typically audio and visually record the investigation sessions (with consents when needed). Dr. Berkowitz's reports are very detailed and are designed to be easily read, with as much clinical, scientific and or investigative information as needed to support the report's resulting opinion and detailed recommendations to follow. She is highly valued and respected by the courts and is a nationally recognized expert.

I am a Commercial Property-Casualty Insurance Expert Witness retained by counsel for insureds, insurance companies and/or third parties. I am available to consult as an expert witness in cases involving Bad Faith, Commercial Property & Casualty Insurance Coverage, Duty to Defend, Insurance Industry Custom & Practice, Certificates of Insurance, Additional Insured Coverage, Construction Defect and Excess & Umbrella Property & Casualty Insurance Claims.

I entered the insurance industry in 1974 and have spent the last forty years handling, supervising and analyzing thousands of claim files for several different insurance companies and third party administrators. I have attained the CPCU, ARM, AIC and CCLA professional insurance designations. This experience and education has given me tremendous insight into the custom and practice of insurance claims departments and the insurance industry.

Claims Experience:

40 years of hands-on Property & Casualty Claims Experience
6 years of Regional Home Office Technical Claims Supervision including field claim file audits
5 years as Claims Manager
5 years as Assistant Claims Manager/Casualty Claims Manager
6 years as Claims Supervisor
8 years as an inside technical claims adjuster
3 years as a field adjuster
7 years as an insurance claims consultant and forensic expert witness

For the last four years I have actively been involved as a Forensic Expert Witness testifying in deposition and in trial. I have submitted several expert reports for civil litigation in Federal Court. I have been retained as a Forensic Expert Witness in approximately 60% of the cases for plaintiffs and the remaining 40% by the insurance industry.

Prior to becoming a Forensic Expert Witness I testified in deposition and trial approximately 30 times as a Person Most Knowledgeable (PMK) and as a percipient witness in several types of civil litigation on behalf of several insurance companies.

Chartered Property and Casualty Underwriter (CPCU) 1983

Associate in Risk Management (ARM) 1996

Associate in Claims (AIC) 1983

Casualty Claims Law Associate (CCLA) 1980

CONSOR provides proven expertise on the business and economic issues of intellectual property disputes. Our firm is renowned for its business-based approach to litigation issues of economic damages, confusion, breach of contract, infringement, lost profits, licensing customs and practices, and valuation.

We thoroughly research and support our opinions based not only on our proprietary database of intellectual property transactions, but also on complete analyses of the underlying business issues.

Trademark and Corporate Brand Assets – We have unmatched proficiency in trademark and brand valuation, royalty rates, licensing, and brand extension strategies. We often provide deal management and take the lead in negotiations of complex licensing agreements.

Patents and Technology – Our technology group specializes in valuations, portfolio management and litigation support, and has pioneered a technology portfolio management system and technology factor analysis.

Electronic, Internet and Software – We continue to be at the forefront of digital asset licensing, establishing global royalty rates and values for software, electronic, and Internet assets.

Celebrities and Estates – Increasingly, celebrities and their estates find great value in their images and associated intangible assets. We establish compensation and values for the use of those assets.

Media and Not-for-Profit Organizations – We establish intellectual property values for media and other entertainment properties, and for not-for-profit organizations that impact a broad range of people, often on a global basis.

Sports and Events – CONSOR pioneered the licensing and valuation of major events beginning with the Calgary Olympics in 1988, to The World Cups of 2006 and 2010.

Mr. Hill has ten years' experience in the addiction counseling/law enforcement field, in addition to over thirty years in addiction treatment. He and his team have become experts, sought after by insurers like United Healthcare to assist them in the development of their ambulatory detoxification protocol. His treatment program is the lone recipient of the United States Behavioral Health's OPTUM AWARD for excellence.

Mr. Hill has provided family court evaluations to the Riverside and Hemet court system for over twenty years. Additionally, he has provided consultation and expert witness testimony in criminal (capital, possession w/ intent), civil (wrongful death, standards of care, labor) cases.

Mr. Hill combines advanced education, years of addiction treatment experience with his own personal knowledge of addiction and recovery. Past clients have commented on his unique ability to simplify difficult cases while gaining the trust of juries and judges. His understanding of addictive disorders surpasses textbook knowledge and encompasses a street understanding.

He opened and directed his own full service adult and adolescent outpatient treatment program since 1987 and, previously, directed residential and hospital based inpatient programs in New Mexico and Colorado.

ACCIDENT RECONSTRUCTION, HUMAN FACTORS, & BIOMECHANICS

Dr. Solomon's studies address accident reconstruction, biomechanics, and human factors as demonstrated by his 43 years of independent research; his more than 200 internationally distributed publications, reports, and presentations; and his 14 book co-authorship. In December of 1998 (after 22 years 9 months of service), he retired as Senior Scientist with the RAND Corporation. He was on the faculty at the RAND Graduate School for 18 years, and taught as an Adjunct Faculty at UCLA, USC, Naval Post-Graduate School, George Mason University, and The Orange County Sheriff's Academy. Dr. Solomon was a PSR (Professional Services Reserve) from 2000 to 2006, a PSCR through July 2007 with the Orange County Sheriff-Coroner Department, and served as a Commissioner of Policing and Safety for the City of Calabasas (2000 to 2005). He has been a court-appointed Hearing Officer from 1995 to 2013 and is on the Approved List of Experts with The Los Angeles Superior Courts. His peer reviewed papers and books address Transportation Accidents (automotive, trucks, motorcycles, bicycles); Industrial & Recreational Accidents (pressure vessels, rotating machinery, forklifts and cranes, exercise & recreational equipment, swimming pools, manufacturing and punch presses); Slip- or Trip-and-Fall Accidents; and Adequacy of Warnings. Of his work, 30% is litigation; the distribution is about 65% to 70% Defense; 25% to 30% Plaintiff; and 5% joint Plaintiff and Defense. Since 1971, he has successfully qualified in courtroom testimony over 2000 times.

For over a half a century, Meaden & Moore's Investigative Acccounting Group (IAG) has provided litigation support services and insurance claim evaluations to legal counsel and commercial property insurers. Our focus since inception has been to provide exceptional customer service and superior work product on a cost-effective basis. Our professionals provide critical, accurate and timely analysis based on our extensive experience and inquisitive nature. We make the complex simple with the knowledge that not all clients, attorneys, judges and jurors have an understanding of accounting. We have confidence in our technical expertise and our ability to adapt to any changes that occur.

We will be a seamless addition to your team and quickly integrate ourselves in order to identify and analyze financial data, separate and isolate key financial issues and assist in the development of strategies. With our unparalleled technical skills, we will evaluate and prepare sound, defensible damage measurements. We have vast experience assisting in the preparation of interrogatories and requests for documents, developing probing questions critical to the matter and clearly communicating our findings and opinions in expert reports and testimony.

We have office locations throughout the nation which are staffed with trained financial professionals (CPA, CFE, CFF, ABV, etc.) possessing expertise in areas including:

Economic damage measurement
Insurance claim evaluations
Business interruption/lost profits
Loss of profits/earnings

INVESTIGATION AND LITIGATION SUPPORT

Fire Sprinkler Systems
- Determine the fire spread which would have occurred if the sprinkler systems had been in service.
- Review of an existing sprinkler system and review of the replacement sprinkler system to determine justification for the claimed cost.
- Investigation of a frozen sprinkler system in a food storage warehouse.
- Review of failures of hangers and sprinklers and a complete evaluation of a high rise sprinkler system to determine if the system was properly installed in accordance with local codes.
- Analysis of plans and specifications to determine the viability of a contractor's claim.
- Review of several cases of water damage including incidents caused by a missing drain plug, a cracked plastic fitting, a popped sprinkler, an improperly rated fire pump relief valve, an improperly installed grooved coupling, water hammer, faulty components, and an earthquake.
- Analysis of a residential fire to determine whether sprinklers would have prevented a fatality.
- Review of sprinkler systems in several condominium projects.
- Investigate corrosion and premature failure of sprinkler system piping.
- Review of an incident where it was alleged that improper installation of a sprinkler system contributed to an accident during remodeling.
- Review of sprinkler system maintenance.
- Review of several dry pipe system failures including residential and commercial occupancies.

Fire Alarm Systems
- Analysis to determine if a fire alarm system provided equivalent protection to systems required by code.
- Investigation of several fire alarm systems to determine if improper operation of the systems increased the fire loss; i.e., were systems properly designed, installed in accordance with applicable codes, and functioning properly.
- Review of fire alarm systems in several condominium projects.
- Review of a system where induced voltage caused numerous trouble signals on the panel.

Special Hazard Systems and Fire Extinguishers
- Investigation to determine why a halon cylinder rocketed.
- Study of several restaurant extinguishing systems to determine the cause of failure.

Phillips, Fractor, and Company is your expert solution for economic, financial, statistical, managerial, valuation, accounting, and complex analyses.

We are a boutique litigation support and consulting firm that specializes in providing creative, effective solutions tailored to our clients' unique analytic and research needs. Our team is comprised of experts and consultants who blend active academic careers with real-world experience in a variety of fields. We draw on economic theory, statistical analysis, survey research, mathematics, computer science, and business theories and best practices to conduct high quality research based on appropriate methodology to give precise insights into our clients' specific research problems. Because of our multidisciplinary and methodologically rich backgrounds, we excel at solving problems that are too difficult or complex for other research firms.

While we work with both small and large firms, we prefer partnering with clients who value high-quality analysis, who do not simply want a cookie-cutter answer or a filled out research check-list, who want to obtain accurate information even when it is difficult. Our Ph.D.s and other leading experts work closely with our clients from the beginning to the end of each engagement, identifying key issues, selecting appropriate methodologies, conducting and supervising analysis, writing reports, and testifying or otherwise presenting results in a clear and understandable manner.

I am a general ENT practitioner/surgeon with 44 years of experience and still practicing a high level of ENT on a full time basis. I attended Dartmouth College as an undergraduate, then earned my medical degree at Washington Univ. Medical School in 1959. My four residency in Otolaryngology was interrupted by 2 years of active duty in the US Navy and ultimately concluded in June, 1966. I became board certified in October of that same year. I subsequently was admitted to the American College of Surgeons.

I am currently a Senior Attending Surgeon at the University Medical Center at Princeton (NJ), and Consultant at McCosh Inf. (the health service at Princeton Univ.) I am a Clin. Assoc.Prof. of Surgery (ENT) at UMDNJ/Robert Wood Johnson School of Medicine. I began what turned into a 20 year tour of duty as head of the student teaching program in ENT at the medical school for the first 20 years of its existence, and lectured extensively in the basic sciences and neck and introductory clinical sciences of the head and neck, and for a while held the title of Adjuvant Clinical Associate Professor of Physiology.

My interest in malpractice began in the early 1980's as a peer reviewer for what was then the MIIX insurance company, and is now MdAdvantage. Since then I have served as the primary Medical Legal Expert on about 100 cases over the last 25 years, advocating mainly for plaintiffs with a smattering of defensive work. I have done many IME's for insurance cases, and have represented numerous individuals in their personal injury claims.

My active duty in the Navy was spent between 1962 and 1964 running an ENT service in a dispensary in San Francisco. Many of my patients were veterans of WW II whose hearing had been badly damaged by the noises of the combat they had been in. This got me jump started in what turned into an intense involvement with traumatic and noise induced hearing loss and tinnitus. Lately I am beginning to see veterans of more recent conflicts with service connected tinnitus and hearing problems who,without my involvement, had been unable to procure the VA benefits to which they were entitled.

Among other things I am a Member of the Expert Advisory Panel of both the NJ State Board of Medical Examiners and the Healthcare Quality Services, Inc. I am a Peer reviewer for the MDAdvantage Insurance Co. I have been serving as an officer of the NJ Acad. of Otolaryngology for well over 35 years and was on the Board of Governors of the NJ Sleep Society during its first 15 years of existence. I have served my state of NJ on citizen organizations including the following: the NJ Noise Control Council; the council which set up the original program for the auditory testing of newborns; the establishment of the initial licensing program for hearing aid dispensing in the state.

I have lectured on a variety of ENT topics to lay groups and professional groups multiple times in the distant and near past including a 3 hour session to over 200 attendees entitled, "Medical Intervention for Tinnitus" at the Mid-Atlantic Tinnitus Conference sponsored by the American Tinnitus Association at Virtua-West Jersey Hospital, Voorhees, NJ. In December 2007' I presented an hour-long lecture to the ENT section of the NJ chapter of the American College of Surgeons entitled "Malpractice Issues confronting the Otolaryngologist." , and more recently In March, 2009, to Grand Rounds of the Dept of ENT at Jefferson Medical College in Phladelphia, PA.

Medical Consulting

Since 1983, Medical Advisors has assisted in the selection of expert witnesses in several thousand cases. Working with plaintiff and defense bar, we have provided medical opinions and testimony which have resulted in competent preparation and in-court support for cases involving medical malpractice, hospital negligence, personal injury, workers' compensation, product liability criminal cases and class action lawsuits.

Technical Consulting

Technical Network Consulting Service produces expert witnesses for attorneys and insurance companies coast to coast as well as internationally. Working with our extensive database, we are "Your Link to America's Most Qualified Experts". Our trained staff specializes in finding qualified scientific, technical and engineering witnesses in your geographical area. A detailed telephone consultation explores all aspects of your case.

Non-legal Consulting

Medical Advisors/Technical Network® Consulting Service Inc., has been connecting experts with attorneys, corporations, municipalities, government agencies and insurance companies. We have grown at an accelerated rate handling cases from coast to coast as well as internationally. We are proud to announce that our large database of consultants is now available for non legal consulting and speaking engagements. We make sure your consultants are available when you need them, where you need them.

Independent Medical Examinations (IME's)

Because of our large database of board-certified medical practitioners, we are able to assist attorneys and insurance providers regarding their need for physicians to conduct independent medical examinations.

Signs of the Times

At first glance, last year was seemingly a good one for personal-injury plaintiffs, who were victorious in 42.3% of all suits resolved via verdict or settlement, based on cases reported to VerdictSearch. That figure represents a five-year high, as depicted by the chart's blue ... as the red line shows, ... to 25%,

Forensic Psychiatry and Psychology – What We Do

Forensic Psychiatric Associates Medical Corporation (fpamed) is a group of psychiatric and psychological experts providing assistance to defense and plaintiff attorneys around the country. Our consultation, reports and testimony aim to illuminate the mental health issues in legal matters. We consult in both civil and criminal matters and to both sides of the bar.

Our primary skill is explaining complex medical and behavioral information in a readily understood and accurate manner. In the legal arena, as in our clinical practices, teaching, and scholarship, clear communication is our central goal.

We have consulted on multi-plaintiff cases, mass torts, employment cases, and forensic child psychiatry cases. We reach our opinions and offer testimony based on evidence, not simply our authority. Integrating the data from medical records, legal documents, psychological testing and interviews, we answer questions at the interface of law and mental health based on solid science and clinical experience.
